

A LOT LESS SHAKIN' GOIN' ON!

THE RYAN JR. SOD CUTTER LINE is the favored choice of rental stores due to its rugged, commercial-tough design and sod cutting performance.

- Knife cutting action travels up to 2" fore and aft 20 times per second for consistent cutting with less vibration
- 75% of weight rests on the cast iron drive wheel with vulcanized knobby tread for superior traction and stability
- Ships fully assembled from the factory

UPDATE YOUR FLEET WITH

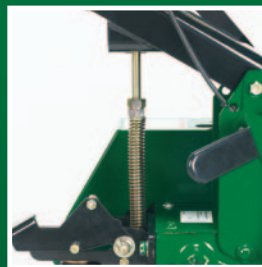

The **First Name** in Turf Renovation™

75% LESS VIBRATION!

NEW ADVANCED TECHNOLOGY VIBRATION ISOLATION

Four elastomeric handle isolators absorb and isolate vibration transmitted through the transmission case.

VIBRATION DAMPENING HANDLE SUPPORT

Handle support spring supports the weight of the handle assembly while isolating vibration from the transmission case.

CUT CURVED LANDSCAPES MORE EASILY

A new 9" x 3-1/2" pneumatic rear castor wheel absorbs vibration and makes it easy to cut turf on curved landscapes. The wheel can be locked in place for straight-line and hillside cutting.

A patent-pending new design and features.
